Annual Report 2009

Department Of External Programme

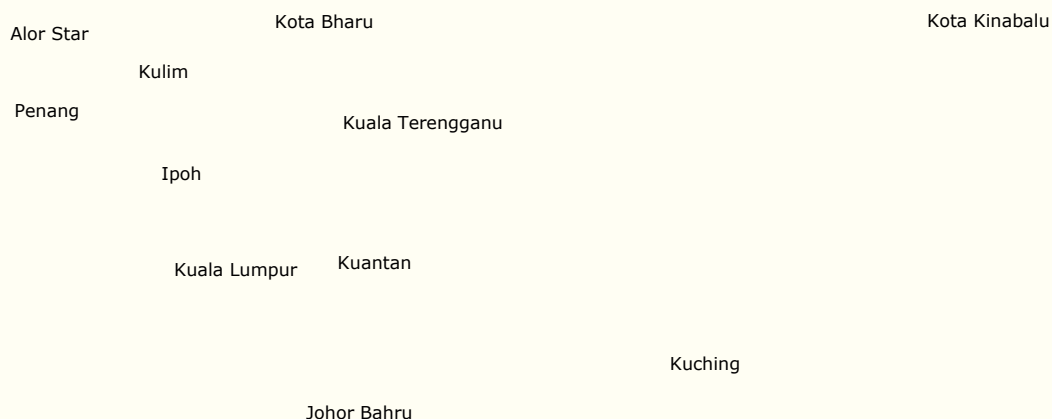

The Bachelor of Engineering (Civil) part-time programme, is one of the signature programmes of UTM, offered by the Faculty of Civil Engineering (FKA). This provides the opportunity of a good undergraduate civil engineering education to working technical assistants to achieve higher professional positions in the construction industry. Since 1995, this part-time programme has been given full support by the highest management of the university and has been offered at various learning centres in Malaysia. FKA, the owner of the programme and SPACEUTM, the administrative manager, work together in running the related activities. FKA and UTMSPACE are committed to provide the highest standards of quality in delivering the part-time civil engineering programmes to achieve the mission and vision of the faculty and university. The programme is monitored continuously by various stakeholders to maintain the quality of the education and subsequently, as part of the quality measurements, the Self-Assessment Report is prepared for the accreditation of the programme.

To ensure that the part-time programme can be carried out smoothly, the university has set up a special office known as the Department for External Programmes, located at the Ground Floor, Block M46, FKA building, UTM Skudai. This office is led by the Head of Department for External Programmes and he is assisted by 9 coordinators who are appointed among the lecturers of FKA.

SPACE-FKA HEAD DEPARTMENT COORDINATORS

Assoc. Prof. Dr. Ahmad Baharuddin Abd Rahman
Assoc. Prof. Dr. Abd Rahman Mohd Sam
Assoc. Prof. Dr. Suhaimi Abu Bakar @ Md. Ramli
Mrs. Fauziah Kasim
Assoc. Prof. Abd Aziz Abd Muti
Assoc. Prof. Ir. Dr. Rosli Mohamad Zin
Dr. Izni Syahrizal b. Ibrahim
Mr. Mohd Zamri Ramli
Mr. Mohd Nor Othman
Dr Mohd Badarudin Mohd Yusuf

Currently there are 8 active learning centres throughout Malaysia in Kulim, Pulau Pinang, Kuala Lumpur, Johor Bahru, Kota Bharu, Kuantan, Kuching and Kota Kinabalu. A new centre in Alor Setar will start in July 2010/11. The lecture rooms and halls available at all learning centres are equipped with the latest teaching aid equipment and facilities. Currently there 687 students enrolled in the continuing education programme. Since, 1995 a total of 1,184 have graduated with degrees in civil engineering programme.
