Annual Report 2009

## Department Of Postgraduate Studies

The postgraduate division is headed by the Head of Department of Postgraduate Studies assisted by two clerical staff and supported by the lecturers in the various departments.

The postgraduate office offers Masters and Doctorate programmes for local and foreign students. The degrees offered are Masters of Engineering, Master of Science, Doctor of Philosophy and Engineering Doctorate. The programmes are Master in Engineering (Civil-Structures), Master in Engineering (Transportation), Master in Engineering (Hydraulics and Hydrology), Master in Engineering (Environmental), Master of Science (Construction Management) and Master of Project Management. The programmes are either full taught courses, research or mixed mode.

Currently the programmes are offered at two centers. The centers are UTM main campus and the Kuala Lumpur International Campus. The programmes offered in Kuala Lumpur are to cater for students opting to follow the programme on a part-time basis.

The total number of graduate students enrolment is 458 students of which 105 are foreign students and 353 local students. Out of the 353 local students' enrolment, the number of local students enrolled at the center in Kuala Lumpur is 84 students.
